

# BUILDING CONSTRUCTION

In June 2024, Council will commence construction on the lower level of the community building at Greenway Park.

The works include:

- Changerooms & associated sporting amenities (e.g. First Aid & Referee Rooms)
- Canteen
- Club storage
- Multi-functional area
- Tiered spectator seating
- Power and water upgrade

Following completion of the above works, the existing changerooms will be converted to public toilets. The works are scheduled to be completed by early - mid 2025.

During construction the new staircase will be fenced off and unavailable for use. The existing staircase attached to the brick building and the existing ramp will remain open to access the top oval. Both ovals will be open and available for use.

Council will be working with sportsground hirers to minimise any disruption. Please take care during these times.
