

Darwinia biflora and *Tetratheca glandulosa* conservation area
-Area to be protected.
No works in this area under this project.

PROJECT DESCRIPTION

Berry Park at Mt Colah is scheduled for renewal under Council's capital works program. The site is listed as local heritage item in the Hornsby LEP for the character of the boundary vegetation.

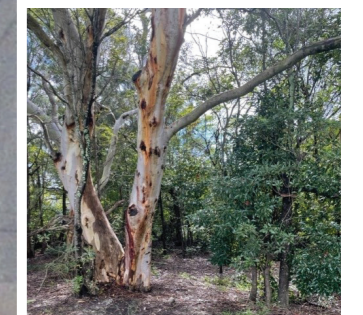

The landscape masterplan includes a new local scale playground, pedestrian circuit path around the oval, improved access with potential relocation of the accessible ramp off Myall Road and relocated accessible parking bay.

The new playground will feature a 3 way swingset, large multiplay unit and picnic setting. The playground extends into the vegetation beyond with a nature play trail and build your own cubby opportunity in the clearing.

The playground will be shaded by the adjacent established canopy and new canopy tree plantings.

The masterplan proposes exercise equipment along the circuit path. It will provide opportunities for warm up and strengthening activities.

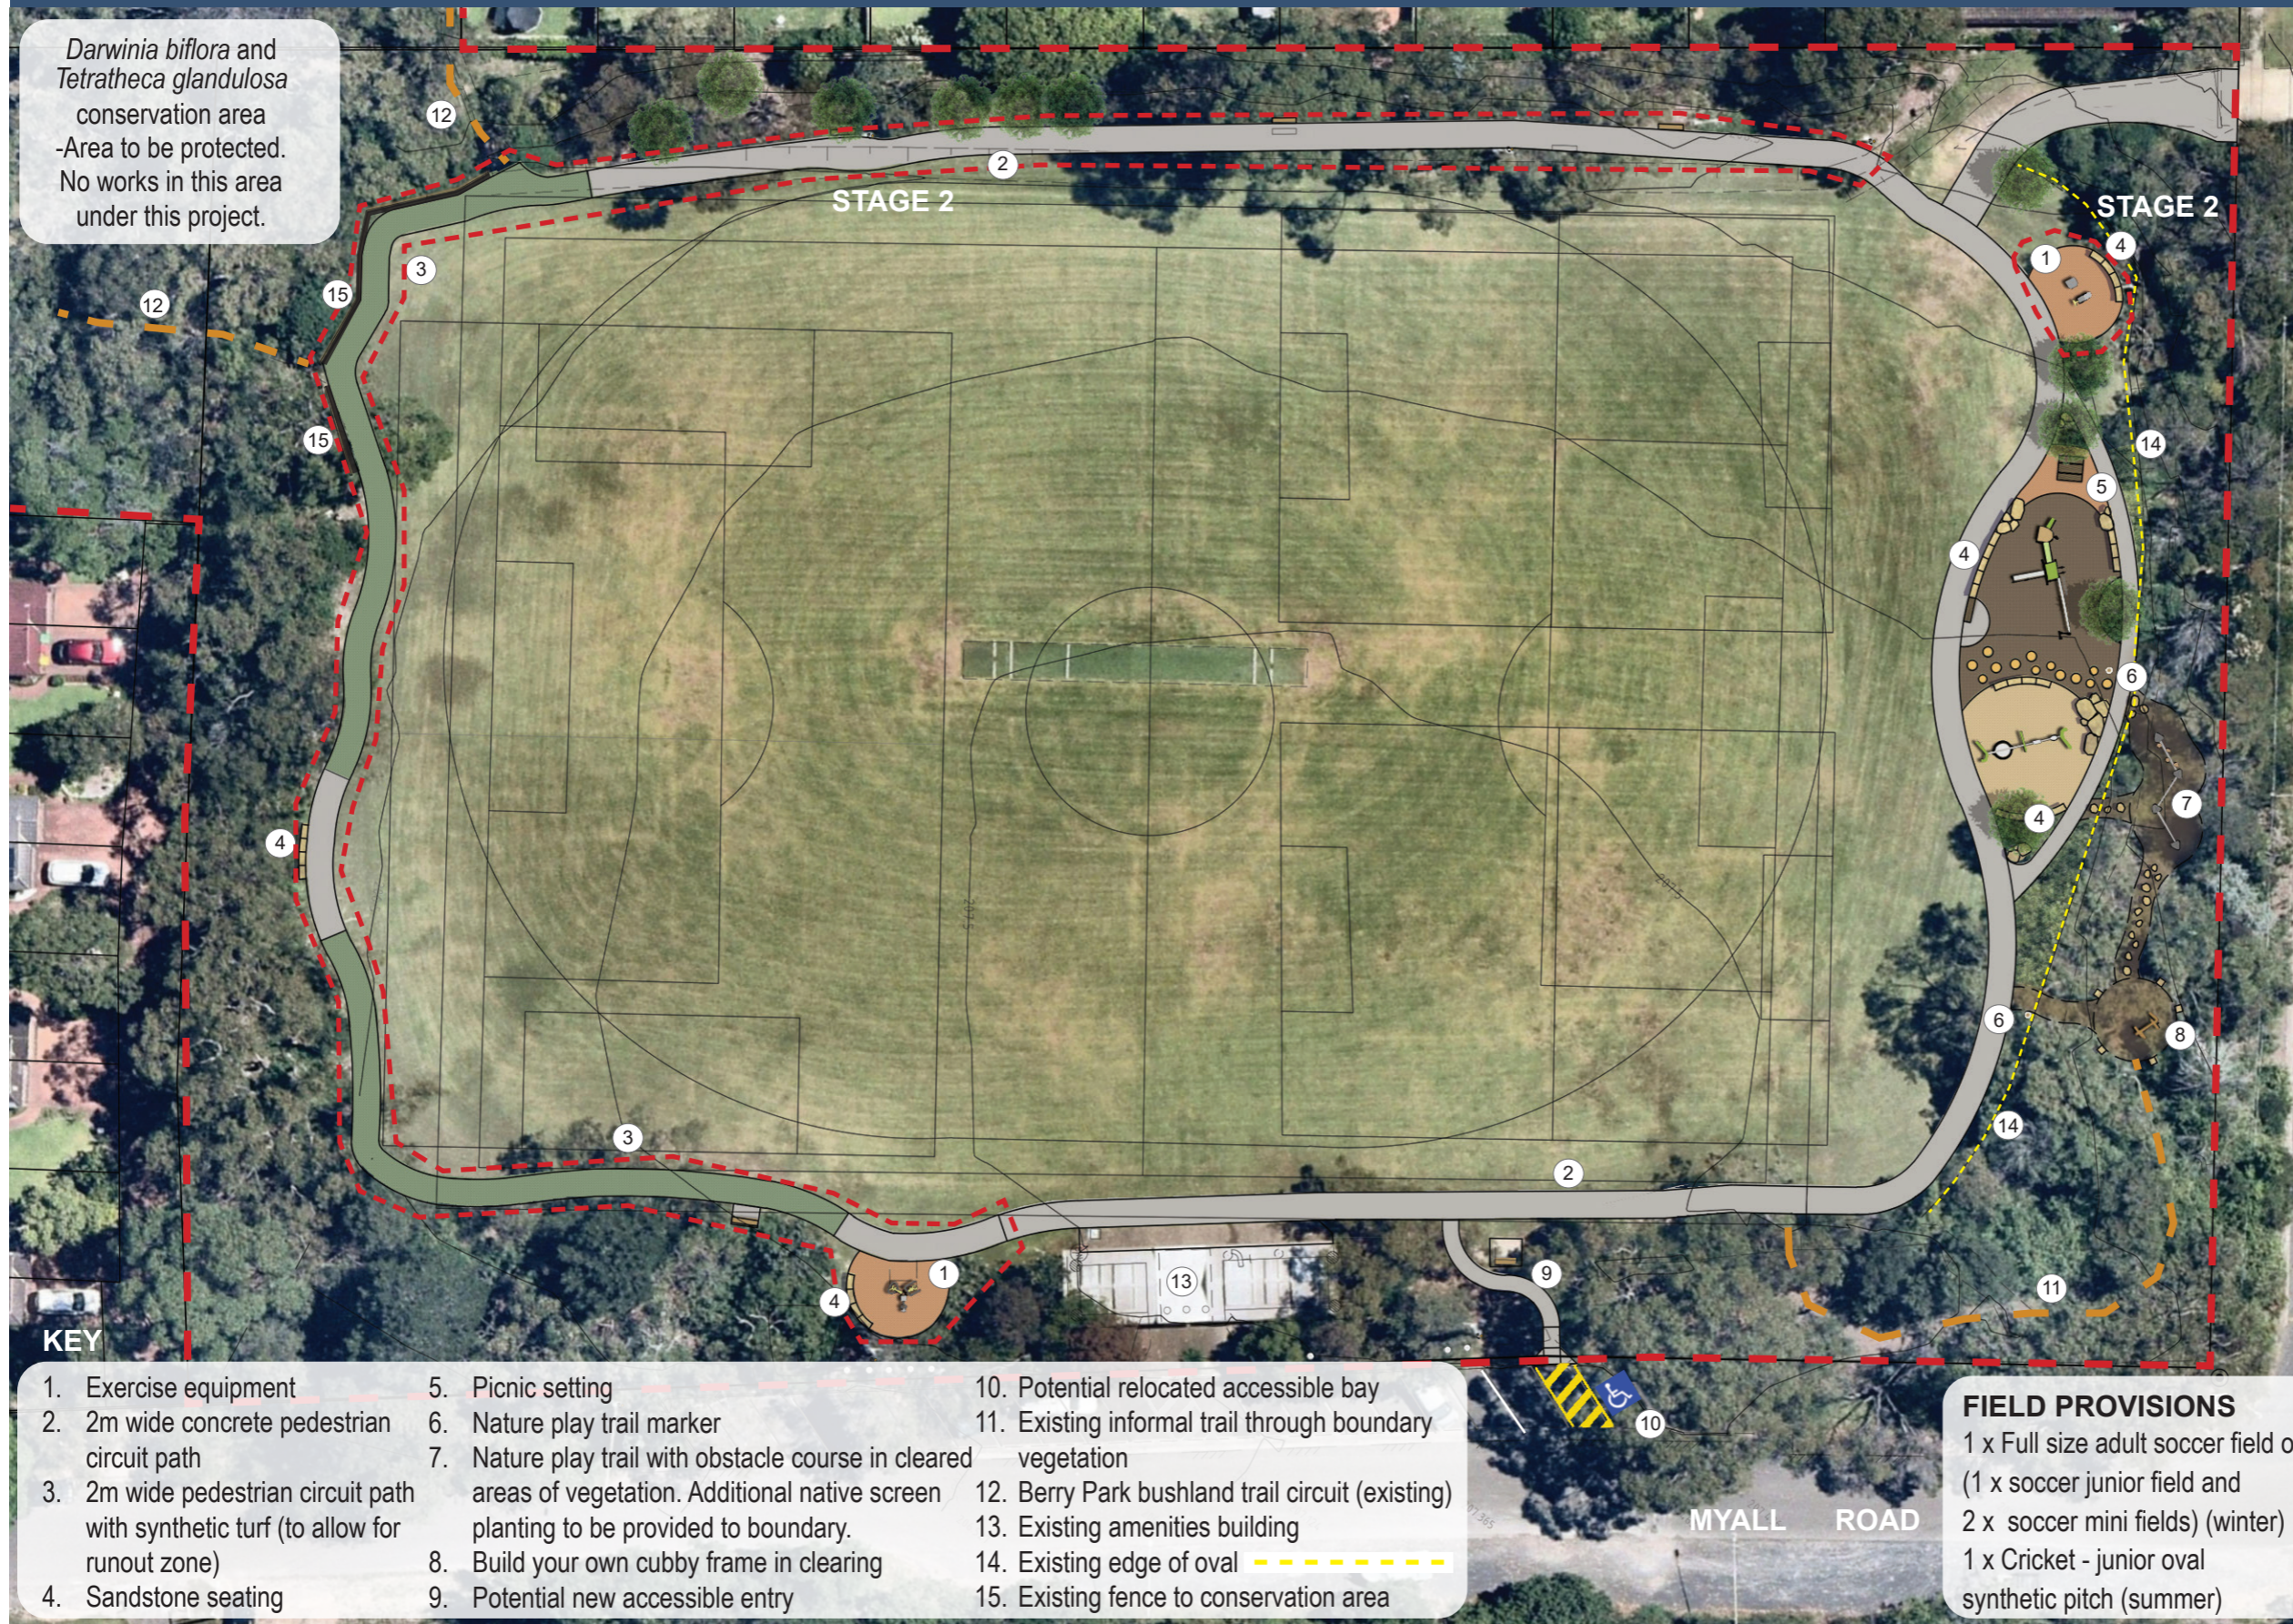

The project is to be staged subject to available funding with the playground to be delivered in stage 1.
